## DESCRIPTION

A detached unit comprising steel portal frame construction beneath an insulated roof with translucent panels, providing an eaves height approximately 4m rising to an apex height of approximately 5m. The elevations are comprised of insulated cladding.

Internally, there are toilets, a customer waiting area, first floor office and staffroom. To the side are ground floor offices with toilet facilities.

The tenant has constructed an extension to the front right-hand side of the property, measuring approximately 4.3m x 8.6m, which has been ignored for the purpose of this report. The customer toilet said to have been constructed by the tenant has also been ignored.

To the front there are two roller shutter loading doors, one manual and one electric, providing access out onto a tarmac surfaced yard which is palisade fenced and gated.

**Note:** We have ignored the customer toilet and unit extension to the front, but should these be the landlord's property, please advise the writer.

## ACCOMMODATION
